

**133-Doc. 9, R-56**

IN THE SUPERIOR COURT FOR THE COUNTY OF DAWSON  
STATE OF GEORGIA

STATE OF GEORGIA, )  
vs. ) FILE NO. 91-CR-300C  
TOMMY LEE WALDRIP, )  
Defendant. )

---

JURY TRIAL

HON. JOHN E. GIRARDEAU

OCTOBER 17, 1994

---

APPEARANCES OF COUNSEL:

ORIGINAL

On Behalf of the State:

LYDIA J. SARTAIN, District Attorney  
LEE DARRAGH  
LEONARD C. PARKS, JR.  
Assistant District Attorneys  
Gainesville, Georgia

On Behalf of the Defendant:

J. RICHARDSON BRANNON, III  
ANNE WATSON  
DONALD PULLIAM  
Attorneys at Law  
Gainesville, Georgia

-----  
VOLUME XI

GEORGIA DAWSON COUNTY  
CLERK'S OFFICE, SUPERIOR COURT  
FILED FOR RECORD

Recorded in Book 55A M. 12-9-94  
This 19 day of September 1994  
Paul. McCord  
CLERK

2179

1 Q And what cite did you proceed to and when  
2 did you go there and why did you go there?

3 A Excuse me, the following day, which was  
4 April 18th, 1991, again I was at my office at that time  
5 in Milledgeville and received a second call, or my  
6 supervisor received a second call from Agent Frank Baker  
7 advising, or requesting that I come up and help in  
8 recovering the remains of a victim from a burial site.

9 Q Approximately what time did you arrive at  
10 that scene?

11 A At about 2:30 p.m.

12 Q All right, sir. In what vehicle did you  
13 travel?

14 A In the van that I was driving at that time.

15 Q Was there anyone else with you?

16 A No, sir, I followed one of the other GBI  
17 agents, I believe it was Danny Duncan, to the scene.

18 Q When you got to the scene, what were your  
19 observations and what did you begin to do first?

20 A The scene was in a wooded area off of an  
21 unnamed and unnumbered county road, the nearest road  
22 that had any kind of number was called Southern Road,  
23 the number on it was 113. This appeared to be somewhat  
24 like a cul-de-sac and off the downgrade of this road to  
25 the right-hand side down the shoulder was a burial site.

1 Q And what did you proceed to do?

2 A There were some faint impressions, shoe  
3 impressions or boot impressions in the earth. I  
4 attempted to photograph them, or did photograph them, I  
5 photographed the general area around there and then we  
6 began sifting the debris, which consisted of twigs,  
7 leaves and dirt which covered the body.

8 Q How was that sifting undertaken?

9 A First the body, a portion of the body had  
10 already been uncovered and in order to attempt to find  
11 any evidence that may be not particularly or not exactly  
12 over that grave site but in that general vicinity, we  
13 raked all the debris to one pile and sifted through it  
14 first.

15 In doing that, anything that may have been  
16 in the general area would have been found through this  
17 sifting process, and when I describe a sifting process,  
18 I'm talking about using different grades of wire and  
19 placing dirt and debris on the wire and rubbing it until  
20 the debris falls through it, anything left on the  
21 surface would be recovered.

22 We did the general area around the scene,  
23 around the grave site first by doing that, and then went  
24 to the grave site itself and started uncovering the  
25 debris from it.

1                   Once we got the outline of the grave site  
2 identified, then I dug down a depth of about two feet  
3 parallel to the grave site so that I could get down in  
4 there and work forward through the dirt which covered  
5 the body.

6                   As I would do that, the earth I uncovered, I  
7 would put that on the sifter and people that were there,  
8 officers that were there helping us would sift that  
9 material.

10                  During that process a Pennington brand  
11 plastic bag was recovered, one of the, I recovered that  
12 by going down, but it was a large bag, excuse me. This  
13 bag was labeled lime and there was also a white  
14 substance consistent with lime on the body itself.

15                  Once we recovered the entire body and the  
16 position of the body was lying north/south, on its back,  
17 the legs were elevated a little bit at the knees, the  
18 arms were crossed and covering the face.

19                  After we got down to uncover the entire  
20 body, placed a sheet down beside it and simply rolled  
21 the body on to the sheet. The purpose in doing that is  
22 that anything that may have been on the body or with it  
23 would at that time be captured in that sheet, and then  
24 took the sheet along with the body, placed that in a  
25 heavy duty body bag and then it was transported.

1 Q Okay. Let me show you an item which is  
2 marked number 21, State's Exhibit 21. Have you seen  
3 this item before?

4 A Yes.

5 Q What is that item?

6 A This is the plastic bag, limestone bag that  
7 was recovered from the burial site.

8 Q And following your recovery of that item,  
9 did you give it to any individuals there at the scene?

10 A Yes, sir, I gave it to Agent Mefford.

11 Q So, Mefford also went to the Gilmer County  
12 scene?

13 A Yes, sir.

14 Q Where in relation to the body itself was  
15 that Pennington lime bag as identified on the bag  
16 itself, where in relation to that was it?

17 A It was overlying a portion of the body in  
18 the grave site itself.

19 Q You described earlier seeing something that  
20 you felt was consistent with lime.

21 First of all, have you seen lime before just  
22 as a person?

23 A Yes, sir, I have.

24 Q And what led you to the conclusion, if  
25 anything, that it was lime? What observations did you

1 make about that material that led you to the conclusion  
2 that it was consistent with lime?

3 A The fact that, from my experience of people  
4 that attempt to hasten the destruction of a body in  
5 using lime, this bag was opened at one end, which would  
6 indicate it had been used, or emptied there at that  
7 scene, and then there was an accumulation of this white  
8 material there.

9 Q Okay. Did you yourself recall whether you  
10 collected any other -- just a moment.

11 MR. DARRAGH: One moment, please, Your  
12 Honor.

13 BY MR. DARRAGH:

14 Q All right, sir, let me show you some  
15 photographs at this time. Photographs -- before I do  
16 it, may I house clean here a moment?

17 I want to show you some photographs marked  
18 State's photographs, and therefore also exhibit numbers,  
19 127-P, 133-P, 134-P, 116-P, 119-P, 125-P, 113-P, 114-P  
20 and 111-P.

21 Have you seen these areas photographed  
22 before?

23 A Yes, sir.

24 Q Do these photographs accurately depict and  
25 show the scenes that they purport to show?

1 A They, the spatters actually went, those  
2 stands are shaped in somewhat of an upside down U as we  
3 are looking at them, and the spatters, as well as the  
4 larger accumulations, were all along the circumference  
5 of that area.

6 Q Okay. The impressions that you got of any  
7 shoes, but particularly the dress shoes, were the  
8 farthest removed from the highest accumulation of blood  
9 or blood spatters, isn't that correct? You wouldn't  
10 disagree with that, would you?

11 A Well, I would have to look through all these  
12 and compare. It would take quite awhile to do that. I  
13 can't say at this point.

14 MR. DARRAGH: Excuse me. Your Honor, I will  
15 object to the question because the question is in form  
16 argumentative, in that there has already been testimony  
17 from the officer about the location of the blood  
18 spatters and the location of the photographs of the  
19 dress shoes taken, and therefore the question itself is  
20 an argumentative question and I will object to it. That  
21 testimony is before the jury and they can determine it  
22 themselves.

23 THE COURT: I'm going to allow it over  
24 objection.

25 BY MR. BRANNON:

1 Q Well, stand number 15, you said it was a  
2 dress shoe impression at that stand but you didn't  
3 mention any soil samples of blood stains at 15. 15 is  
4 the closest one north down the road, isn't it?

5 A We had some stands that went as high as 20,  
6 the best as I recall, and those numbered stands only go  
7 to number 15. From my own recollection and what I have  
8 in my notes, I can't testify where anything from 16 to  
9 20 were. There is some following testimony that could.

10 Q Okay. So, stand 16, where you have a dress  
11 shoe impression, and stand 18, where you had a faint  
12 dress shoe impression, you don't know where those were?

13 A To the best of my recollection, they would  
14 have been, following the sequence of numbers, because in  
15 looking at that, started with number one and went in a  
16 counterclockwise manner, so the higher numbers in all  
17 probability, the best I can say right now, would have  
18 been northward.

19 Q Coming this way?

20 A Yes, sir.

21 Q From 15, back this way?

22 A That's correct.

23 Q Okay. Your signs, scuffing or struggling  
24 in the dirt, those signs are down here near six and  
25 eight and seven and eleven, correct?

1           A        Yes, sir, there were some drag marks in that  
2 vicinity.

3           Q        All right. The shoe impressions that were  
4 taken at the scene, of your personal knowledge, you are  
5 in no way attributing those shoe impressions to Tommy  
6 Lee Waldrip at this time, are you?

7           A        No, sir.

8           Q        And the beer cans found at the scene, you  
9 are not attributing those at this time to Mr. Waldrip,  
10 are you?

11          A        No, sir.

12          Q        And the cigarette butts you found at the  
13 scene, you are not attributing those to Mr. Waldrip, are  
14 you?

15          A        No, sir.

16          Q        The hair sample found at the scene, you are  
17 not attributing that to Mr. Waldrip, are you?

18          A        Of my own knowledge, no, sir.

19            MR. BRANNON: Give me just a minute. You  
20 were up there a good while, let me look through my notes  
21 here.

22 BY MR. BRANNON:

23          Q        The crime, as you understand it, was alleged  
24 to have taken place, if indeed something happened here,  
25 here at Hugh Stowers Road late on the evening of April

1 13th, is that how you understand it, 1991?

2 A Yes.

3 Q Okay. When you got out there it was April  
4 17th, four days later, is that correct?

5 A Yes, sir.

6 Q Did you ever personally talk to Mr. John  
7 Hughes, the farmer who lives over in Forsyth County,  
8 that owns some property right out here down Hugh Stowers  
9 Road?

10 A No, sir.

11 Q South of this?

12 A I didn't.

13 Q All right, let me talk to you just a minute  
14 about the Gilmer County site, if I could. This  
15 photograph that is marked 133-P, that's a photograph of  
16 the kind of what I call the overall scene as you walk  
17 down to where the grave site is located, would that be a  
18 correct statement?

19 A Yes, sir.

20 Q All right. Is there any crime scene tape  
21 out when you walked on that site?

22 A I don't recall there being any there.

23 Q There is not any in the photograph when you  
24 photographed it, is there?

25 A No, sir.

1 Q All right. And when you got to this site,  
2 what day is it?

3 A April 18th, 1991.

4 Q Okay. So it's conceivably four to five days  
5 later. Now, when you got to this site on April 18th,  
6 you don't know how many, not law enforcement officers,  
7 but just people had driven by and been on that site and  
8 got out and walked around, do you?

9 A No, sir. It was, seemed to me a fair, very  
10 remote area but I have no idea how many people may have  
11 been there, no.

12 Q You don't have knowledge of anybody that  
13 just walked down the road or picked up an insurance card  
14 there or any drivers by?

15 A No, sir.

16 Q But when you showed up on the 18th there was  
17 no crime scene tape there, correct?

18 A Not that I recall.

19 Q All right. When you got to the Gilmer  
20 County site on the 18th, how many people were there?

21 A I don't have an exact accountings. GBI  
22 Agents Tommy Stone and Tommy Mefferd were there and  
23 Danny, GBI Agent Danny Duncan, I believe I followed him  
24 there, and a lady there from the Hall County Sheriff's  
25 Office, Deputy Sheriff Kathy Sheffield was there.

1 Q When you are talking about from the side of  
2 the roadway, all your measurements were made from this,  
3 this would be the west side?

4 A Right.

5 Q Correct?

6 A Right, this is the west here. That's the  
7 east, north, the south is up here.

8 Q All right.

9 A Agent Attaway would hold the tape measure,  
10 stand over here and mark as best he could and I would  
11 record the measurement on the other end of the tape, is  
12 what we are doing.

13 Q Okay.

14 A 8-B, which I'm going to put right here  
15 beside 8-A is a second tire impression, okay? It's 26  
16 feet five inches from our line here and it is 14 feet  
17 two inches from the west side of the roadway over here.  
18 Six is a tire impression, 8-B is a similar tire  
19 impression, in my opinion, okay? From outside the wheel  
20 here, to outside of the wheel here, if I may get into  
21 this.

22 Q What observation did you make about those  
23 two tires?

24 A To me they appeared to be similar tire  
25 tread.

1 Q So you determined then to make a measurement  
2 between those?

3 A It is my belief this was one vehicle here,  
4 actuality driver's side tire here, the passenger side  
5 front tire here. From the outside of the tire to the  
6 outside of the tire, the measurement was 63 and a  
7 quarter inches.

8 Q All right.

9 A Okay? Now, stand nine --

10 Q All right, let me ask you this. As to the  
11 outside of those two tire areas, were these things going  
12 straight on the road, or were they to an angle?

13 A They were angled. You can see the tire  
14 impression here in my opinion was the most obvious  
15 because you can see where it actually crosses over, not  
16 really center line but I'm going to call it center line  
17 and you can see where it is turning at an angle, that  
18 pushed the dirt up. This tire is behind this tire, the  
19 vehicle is probably located something like that when it  
20 came to a stop.

21 Q All right.

22 A And again that is very rough, okay?

23 Q You went to what you call stand nine.

24 A Right. Okay, stand nine is located right  
25 here, it is 22 feet from our line of center mass and it

1 is 13 feet seven inches from the west side over here.  
2 What we had here, we had blood splatters and we had  
3 broken glass, glass fragments here.

4 Q Okay. Now, when you make an observation,  
5 glass fragments and blood splatters, is that based on  
6 what somebody has told you or what you personally  
7 observed?

8 A I observed in my opinion blood splatters and  
9 I saw broken glass.

10 Q All right. You went on to another location,  
11 is that correct?

12 A Yes. Stand ten, which is located right  
13 here. You can still see it over here in the photograph.  
14 Stand ten, it was located 21 feet to center mass here  
15 and 13 feet ten inches from the west side. What we had  
16 here was a single hair and a button was located in that  
17 area right there.

18 Q Did you observe the collection of those  
19 items?

20 A Yes, I later did, yes.

21 Q Okay. So, at the time you made the  
22 notations, they were still there and had not been  
23 collected yet?

24 A That's correct, yes.

25 Q And -- okay. You went on from there to

1 another location, is that correct?

2 A Yes, stand 11. Which is located right here  
3 and again you can kind of see it over here at the side  
4 right here. Stand 11 was 19 feet to here, to center  
5 from center mass to stand 11 and 17 feet six inches to  
6 the left side of the roadway here. This was an  
7 accumulation of blood in a ditch, this is actually a dip  
8 here, it is over in the ditch, it's an accumulation of  
9 blood there on the dirt surface as well.

10 Q And you went to stand 12?

11 A Right. Okay, stand 12, which I'm going to  
12 put my 12 right here, again you can see 12 here in front  
13 of ten. Stand 12 was 16 feet six inches from our line  
14 here and was 13 feet seven inches from the west side of  
15 the roadway. This was a portion of a shirt, I referred  
16 to in my opinion as some type of dress shirt and there  
17 was also in my opinion a tennis shoe impression here.  
18 This is at 12.

19 Q And was there another item also there at 12?

20 A There was also hair at 12, like it was, like  
21 a, it was a group of hair, more than one hair.

22 Q And stand 13?

23 A Okay. Stand 13 is a little more, stand 13  
24 is located here. If you will notice here, it is very  
25 difficult to see, but it's over here, you can see it is

1 kind of hidden there. Stand 13 is 16 feet six inches  
2 from our line here, 19 feet six inches from our west  
3 side of the roadway and this again is just an  
4 accumulation of blood over here on the ground surface.

5 Q And I'm sorry, which number was that last  
6 one?

7 A 13, our next one will be 14.

8 Q Okay.

9 A 14 is located here, again you can see 14  
10 here. 14 was 14 foot ten inches from our line here, it  
11 was 13 feet four inches from the west side of the  
12 roadway. There were two cigarette butts located on the  
13 ground there.

14 Q What is your recall on how close they were  
15 together or how far apart they were?

16 A They were in close proximity, I don't recall  
17 exact distance between them.

18 Q But they were close enough you gave them the  
19 same measurement?

20 A Yes, they were very close to each other. I  
21 don't know the exact distance but they were fairly  
22 close.

23 Q All right. You went to what you called  
24 stand 14-A, is that correct?

25 A The next one will be 14-B.

1 Q I'm sorry.

2 A We will call it 14-B, I will place it right  
3 here. 14-B is 12 feet three inches from our line here,  
4 17 feet six inches from the west side. This was an  
5 indentation in the ground, okay? Initially we didn't know  
6 what it was, just an indentation, where an object had been  
7 mashed into the ground, okay?

8 Q Would you describe the shape of that  
9 indentation?

10 A It was, at the time it just looked like a  
11 small, I didn't know what it was, I knew something had  
12 been indented in the ground but it was just an indentation  
13 where something had gone long ways into the ground, it  
14 was long, well, long and thin.

15 Q All right. Let me show you an item of  
16 evidence that has been previously admitted as State's  
17 Exhibit 73. Would you observe that item for a minute?

18 A Yes, I recognize this item.

19 Q And how do you recognize that item?

20 A This item was provided to me by Investigator  
21 Doug Perry that morning when I initially arrived at this  
22 scene.

23 Q How does that item compare with the indent  
24 that you just described?

25 A Later in the day after I completed my

1 there. 16 is located right here. It is two feet nine  
2 inches to the center mass and 14 feet one inch from the  
3 west side, and this was in my opinion a tennis shoe  
4 design on the surface of the dirt, it had like a diamond  
5 design, in my opinion like a diamond design on the tread  
6 of a tennis shoe.

7 Q All right.

8 A Okay.

9 Q You went to another location?

10 A Stand 17. With 17 we get one foot north of  
11 our line, we are back this side of the line, and this is  
12 one foot north and it was 14 foot five inches from the  
13 west side and this was a second what appeared to me to  
14 be some type of tennis shoe impression.

15 Q Then you proceeded to the next stand?

16 A 18. Okay, 18 again we're north, 33 foot two  
17 inches north of center, and three foot five inches --  
18 wait a second --

19 I apologize. I have lost that one in my  
20 notes.

21 Q Mr. Mefferd, are you looking for your  
22 diagram?

23 A I was looking for the legend to identify  
24 what 18 is.

25 Q Is that what you are looking for, sir?

1           A        Yes, sir, thank you. 18, again, as I  
2 described, I apologize, was a dress shoe impression,  
3 dress shoe impression here.

4                   Okay, 19, if you will, is going to be  
5 located over in this direction. It's eight feet north  
6 of this line and it's four feet to the west side of the  
7 roadway, it is like over here, and this was a Busch beer  
8 can.

9           Q        All right.

10          A        Okay.

11          Q        Then you proceeded to where?

12          A        Okay. My next one will be 20. 20 is  
13 located right here, seven feet three inches from this  
14 line, it is eight feet from the west side of the  
15 roadway.

16                   This was a shoe impression but it was like  
17 someone was sliding, the shoe impression itself had a,  
18 has like someone slid on the dirt.

19          Q        And which stand was that one, now?

20          A        20.

21          Q        Okay.

22          A        Right here.

23          Q        Then you went --

24          A        I went to stand 21, which is just above it  
25 here. This is 12 foot nine inches here to the center

1 mass, eight foot two inches, and this is a second shoe  
2 impression, or another shoe impression on the dirt  
3 surface.

4 Q Then stands 22, 23 and 24, did they involve  
5 similar items?

6 A Yes.

7 Q Where were they located?

8 A Okay. 22 is located right here, which is 23  
9 feet to center mass and two feet south of this location  
10 here, and this was again a Busch beer can.

11 Q And 23 and 24?

12 A Okay. 23 was located right here, 15 feet  
13 four inches from this center mass and seven feet west,  
14 again another Busch beer can.

15 Q Okay.

16 A And my last is going to be 24, it is located  
17 over here, and it again is a Busch beer can, it is 35  
18 feet five inches and 27 feet from the west side. Those  
19 those last ones were all Busch beer cans, they were  
20 empty.

21 Q Please have a seat, sir. Now, at the Hugh  
22 Stowers Road scene you have just been describing, how,  
23 did you observe a collection of the physical evidence  
24 there at the scene?

25 A Yes, I did.

1 Q And who collected the physical evidence  
2 there at the scene?

3 A Agent Mitchell.

4 Q And to whom did he give that physical  
5 evidence?

6 A As we, prior to departing from the scene, he  
7 relinquished custody of all the evidence which was  
8 collected there over to myself.

9 Q All right, sir. The evidence that you  
10 received from Agent Mitchell at the scene, did you in  
11 any way tamper with that evidence, seek to alter that  
12 evidence, do anything to add to that evidence or take  
13 away from that evidence or change it in any fashion?

14 A No, sir, I did not.

15 Q Did you allow anybody else to do the same  
16 with that?

17 A No, sir, I did not.

18 Q What did you do with the evidence that you  
19 took from there at the scene, from Mitchell?

20 A I initiated my own evidence forms, the  
21 evidence I took custody of, other than the items  
22 provided to me by Investigator Perry, he already had an  
23 evidence form initiated for the items he took. I  
24 maintained custody until I turned for example everything  
25 over to Chief Deputy Henry George of the Dawson County

1 SO.

2 Q In maintaining custody, did you in any way  
3 alter, change, add to, seek to take away from, fool with  
4 it in any fashion?

5 A No, sir, I did not.

6 Q I need to, by way of necessity, go through  
7 several items of physical evidence at this point. I  
8 will try to be brief with it. Let me show you first  
9 items 27-H and 27-J. Well, let me do it in this face,  
10 sir. I'm going to show you items 27-G, 27-L, 27-B,  
11 27-A, 27-C, 27-F, 27-E, 27-P, 27-O, 27-H, 27-J, 27-I,  
12 27-M, 27-K, 49, 47, 46, 44, 42, 41, 51, 50.

13 All right, also I'm going to show you item  
14 number 26 as originally contained in that paper bag.  
15 Did you observe the collection of item 26 as well?

16 A Yes, I did.

17 Q And who actually collected that item?

18 A I believe Agent Attaway collected this item.

19 THE COURT: Has that been previously  
20 identified?

21 MR. DARRAGH: No, sir, I believe it has not  
22 been.

23 BY MR. DARRAGH:

24 Q Do you recognize the notation on number 26  
25 at the top of the page?
